

POLICIES PERTAINING TO BUSINESS AND SUPPORT SERVICES

PROTECTIVE EYEWEAR

All teachers and students shall wear industrial quality eye-protective devices in appropriate situations, including the following:

- a) When working with woodshop tools such as mills or saws that require protective eyewear;
- b) When working with hot molten metals;
- c) When turning, shaping, cutting or stamping any solid materials;
- d) When tempering or kiln firing any metal or other materials;
- e) When electric welding;
- f) When gas welding;
- g) When working with dangerous or toxic chemicals, herbicides or insecticides;
- h) When working with caustic or explosive materials;
- i) When working with hot liquids or solids.
