

POLICIES PERTAINING TO BUSINESS AND SUPPORT SERVICES

SANITATION

All buildings in which the School operates shall be maintained in a sanitary manner consistent with state law. School buildings will be properly ventilated and shall provide an adequate supply of drinking water, sanitary toilet facilities, an approved sewage disposal system, hand washing facilities, a heating system, and lighting facilities that conform to established standards of good public health engineering practices. The School lunchroom facilities shall be maintained in compliance with all state food and drug rules. Any custodian employed by the School on a full-time basis will be trained in the fundamentals of safety and school sanitation.

Date Adopted: November 4, 2000
